Joe is a pioneer of, and is a continuing inspiration for, the green building movement. He is co-developer of Dockside Green in Victoria BC, a 15-acre waterfront urban redevelopment project that envisages having 26 LEED Platinum buildings. The early stages of the development are delivering excellent commercial returns, showing that green can be profitable. Dockside Green, which will host a community of 2,500, will also include hotel, retail, office and light industrial facilities. The \$C350 million project will be built over seven to ten years.

As a partner of Windmill Developments, Joe Van Belleghem, is responsible for green building development strategies and the BuildGreen Consulting arm. A chartered accountant by training, Joe has over 17 years experience in the property development and financing arena, he serves on the board of directors of the US Green Building Council and is also a founder and director of the Canada Green Building Council.
